How to increase employees' productivity by 30%?

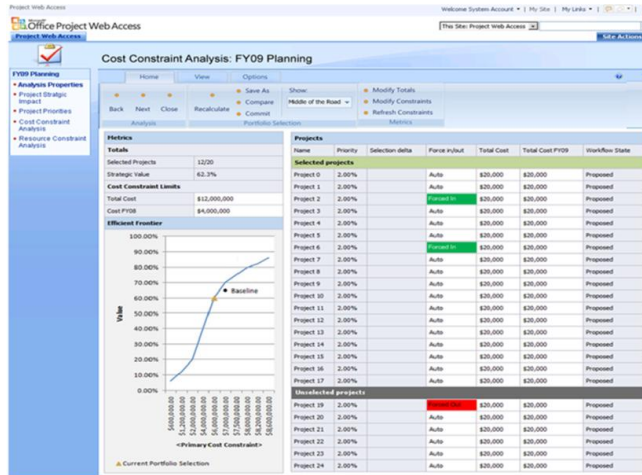

Virtusa, a global information technology (IT) services company providing IT consulting, technology implementation and application outsourcing services implemented Office Visio 2007 and its add-ins. Some of the benefits they received include:

- Reduced manual intervention by 40 percent

Problems:

- How to build business case?
- How to choose the best investment that yields highest ROI?
- How to capture issue and risk?

Solution: Project Portfolio Management

- Select the right investments. Create portfolios that align strategy and maximize ROI

Facts and figures:

Did you know that Project can reduce redundant work by aiding in providing visibility into Project Portfolio of entire organization, which entails identification and elimination of redundant work?

Here's the quote from one of our customers:

"I estimate that **project managers are saving 10 hours a week**. That's worth **\$46,000 annually** to USM. **Time savings for the rest of the staff will add another \$20,000 in annual productivity-related savings.**"

-Homer Coffman, Chief Information Officer, University of Southern Mississippi

Thank you !
